DE MORSE'S D'MORSE'S INVICORATING CORDIAL

TOR GENITAL PEBILITY, IMPOTENCY, INCONTINENCE, OR NOCTURNAL EMISSIONS, &c.—The astronishing success which has attended this invaluable medicine, for Loss of Muscular Energy, Physical Lassitude, and significant of the consequences of youthful indiscretion, or indulgence of the consequences of youthful indiscretion, or indulgence of the passion in riper years, renders it the most valuable proparation ever discovered. In fact, as a remedy for the above complaint, it stands unrivalled and alone. There is no other reliable remedy, or any that has authentically received the sauction of the Medical Faculty. The Wonderful Verstable Production of which this medicine is composed has been tested, and its virtues proclaimed, by the highest names of the faculty of London, Paris, and the chief cities of Europe, as well as by eminent Physicians in this country. It is the only infallible remedy for NERVOUS, HEAD, and MIND COMPLAINTS—the mental physic so long sought for and never before found—the only agent that can administer to MIND DISEASES. It will remove all nervous affections, DEPRESSION, EXCITEMENT, incapacity to study or business, loss of MEMORY, CONFUSION, thoughts of self-destruction, fear of insanity, &c. It will restore the appetite, renew the health of those who have destroyed it by Someal Excesses or evil practices. It has been said by some that these disorders, emissions, &c., were incurable. This, however, is not the fact.

DR. MORSE'S INVIGORATING CORDIAL has cured, and is constantly curing, these complaints—relieving the

MORSE'S INVIGORATING CORDIAL has cured. and is constantly curing, these complaints—relieving the mental and bodily incapacity of the unfortunate sufferer, as the following testimony of the names received will conclu-

the following testimony of the names received will conclusively show:

Dr. Woodward, of ——, Massachusetts Insane Hospital, writes of one of his patients being cured by using this Cordial thus: "It gives me pleasure to inform you that one of my patients, while in Boston, procured some of your Cordial. He tells me that he has not had a single emission since he commenced taking it, while before he had two or three a week. When he applied to me," says Dr. W., "I thought it hardly possible for him ever to regain his full strength. I prescribed the usual medicine used in those cases in the hospital, but they had no effect. In the mean time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

time he purchased some of your Cordial, which has effected a cure I am sure no other medicine would. I shall ever recommend it, whenever an opportunity occurs."

The nature of the maladies relieved by this Cordial are generally such as to leave the publication of certification of cures out of the question. The proprietor could produce a host of the most conclusive testimony to show that the great reputation it enjoys was not accidentally obtained, but is firmly based upon its positive and apparently miraculcus virtues. In all directions are to be found the happy parents of healthy offsprings, who would not have been so but for this extraordinary preparation. And it is equally potent for many diseases for which it is recommended.

THE MEDICAL JOURNALS
have not. In a single instance that has been authenticated, given their sanction to any other preparation for the above complaints. It has, in many violent and desperate cases, effected radical cures, after patients had been abandoned, and their condition pronounced hopeless by medical practitioners of high professional character.

THE COMMON EXPRESSION

of those who have used this Extract is: "I had heard your Cordial highly spoken of, but was one of the incredulous in regard to its merite, having tried various medicines sold for the same purpose, (different Sarsaparellias), without deriving any bonsit. I had almost given up all hope of obtaining relief, when I purchased some of your Cordial. I had no emissions since, although it is not three weeks. I am satisfied that the half a dozen bottles I took will cure me." I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that; but I found no relief until I

took will cure me."

Another says: "I had consulted several distinguished physicians. Some said I could not be cured; others prescribed this thing and that; but I found no relief until I procured some of your Cordial. I must say it completely

oured me."

Another says: "I was surprised at the effect your Cordial had. Why had I not heard of it before? It would have saved me so much expense, besides years of mental and bodily suffering."

odily suffering."
CAUTION.—Ask for Dr. Marce's Cordial, and take no CAUTION.—Ask for Dr. Marre's Cordial, and take no other, as there are worthless initations which its unrivalled excellence, fame, and popularity have brought into the market. It will not hurt the most delicate female, but do good. Beware of all other Cordials, &c., and try only this. It is put up in pint bottles, with this words Dr. MORSE'S INVIGORATING CORDIAL blown on the glass. Price \$3 per bottle; two bottles, \$6; six bottles, \$12; and \$24 per dozen.

PROCLAIMS TO THE AFFLICTED
That he has discovered the most certain, speedy and efficacious plan of treating
SECRET DISEASES
that has ever yet been presented to the world. By his plan,
founded on observation made in the Hospitals of Europe
and America, he will insure
ACURE IN TWO DAYS,
OR NO CHARGE

No Mercury or Nauseous Drugs used.

Weakness, Loss of Organic Powers, Pains in the Loins, Disease of the Kidneys, Affections of the Head, Throat, Nose and Skin, Constitutional Dability, and all those horris affections arising from a Certain Secret Habit of Youth, that solitary practice, more fatal to its victims than the song of the Syrens to the mariners of Ulysses—blighting their most brilliant hopes or anticipations, rendering Marriage, etc., impossible.

A CURE WARRANTED, OR NO CHARGE.

impossible.

A CURE WARRANTED, OR NO CHARGE.

Young Men especially, who have become the victims of Shilary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or those contemplating marriage, being aware of physical weakness, should immediately consult Dr. J., and be restored to perfect health.

Office, No. 7 South Frederick street, Baltimore, Maryland, on the left hand side, going from Baltimore street, seven doors from the corner. Be particular in observing the name and number, or you will mistake the place.

DR. JOHNSTON,

Member of the Royal College of Surgeons, London, Graduate from one of the most eminent Colleges of the United States, and the greater part of whose life has been spent in the Hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known. Many troubled with ringing in the cars and head when asleep, great nervousness, being alarmed at sudden sounds, and bashfulness, with frequent blusbing, attended sometimes with derangement of mind, were cured immediately.

TAKE PARTICULAR NOTICE. TAKE PARTICULAR NOTICE.

Dr. J. addresses all those who have injured themselves by private and improper indulgences, that secret and solitary habit, which ruin both body and mind, unfitting them for habit, which ruin both body and mind, unfitting them for either business or society.

These are some of the sad and melancholy effects produced by early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Museular Power, Palpitation of the Heart, Dyspepsia. Servous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c., &c.

Mentally.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Lideas, Depression of Spirits, Evil Forebodings, Aversion of Society, Self Distrust, Love of Solitude, Timulity, &c., are some of the evils produced.

Love of Solitude, Timidity, &c., are some of the evils produced.

NERVOUS DEBILITY.

Weakness of the system, Nervous Debility and premature decay generally arise from the destructive habit of youth, that solitary practice so fatal to the healthful existence of man, and it is the young who are most apt to become its Victims, from an ignorance of the dangers to which they subject themselves. Parents and Guardians are often misled with respect to the cause or source of disease in their sons and wards. Alas! how often do they ascribe to other causes the wasting of the frame, Palpitation of the Heart, Dyspepsia, Indigestion, derangement of the Nervous System, Cough, and Symptoms of Consumption; also those serious Mental effects, such as loss of Memory, Depression of Spirits, or peculiar fits of Melancholy, when the truth is, they have been caused by indulging in Pernicious but alluring practices, destructive to both flody and Mind. Thus are swept from existence thousands who might have been of use to their Country, a pleasure to their friends, and ornaments to Society.

DR. JOHNSTON'S INVIGORATING REMEDY FOR OR-DR. JOHNSTON'S INVIGORATING REMEDY FOR ORGANIC WEAKNESS.

This grand and important Remedy has restored strength
and vigor to thousands of the most debilitated individuals,
many who had lost all hopes, and been abandoned to die.
By its complete invigoration of the Nervous System, the
whole faculties become restored to their proper power and
functions, and the fallen fabric of life is raised up to beauty,
consistency and duration, upon the ruins of an emsclated
and premature decline, to sound and pristine health. Oh,
how happy have hundreds of misguided youths been made,
who have been suddenly restored to health from the decenwho have been suddenly restored to health from the devas-tations of those terrific maladies which result from indiscre-

tion! Such persons, before contemplating MARRIAGE, MARRIAGE,
should reflect that a sound mind and bedy are the most necessary requisites to promote commubial happiness. Indeed,
without this, the journey through life becomes a weary pilgrimage; the prospect hearly darkens to the view; the mind
becomes shadowed with despair, and filled with the melanchely reflection that the happiness of another becomes blighted with our own. Let no false delicacy provent you, but
annly immediately.

ed with our own. Let no false delicacy present you, but apply immediately.

He who places himself under the care of Dr. Johnston may religiously confide in his honor as a Gendeman, and confidently rely upon his skill as a Physician.

TO STRANGERS.

The many thousands cured at this institution within the last ten years, and the numerous important Surgical Operations performed by Dr. J., witnessed by the Reporters of the papers and many other persons, notices of which have appeared again and axian before the public, is a sufficient guaranty that the afflicted will find a skilful and honorable physician.

TAKE NOTICE.

It is with the greatest reluctance that Dr. Johnston permits his card to appear before the public, deeming it unprofessional for a physician to advertise; but unless he did so, the afflicted, especially strangers, could not fail to fall into the hands of these inprudent, boasting impostors—individuals destitute of knowledge, name, and character—pedlars, shoemakers, mechanics, &c. advertising themselves as physicians; ignorant quacks, who keep you trifling month after month, as long as possible, and in despair leave you with ruined health to sigh over your gailing disappointment. It is this motive alone that induces Dr. J. to adverties, for healons can care you. To those unacquainted with his reputation he deems it necessary to say, that his credentials or diplomas always hang in his Office.

Weakness of the Organs immediately cured, and full vigor restored.

AVER'S CHERRY PECTORAL. TO CURE A COLD, WITH HEADACHE AND SORE NESS OF THE BODY, take the CREEN PROFORM on going to bed, and wrap up warm, to sweat during the night. FOR A COLD AND COUGH, take it morning, noon, and evening, according to directions on the bottle, and the difficulty will soon be removed. None will long suffer from this trouble when they find it can be see readily cured. Persons afflicted with a scatch cough, which breaks them of their rest at night, will find, by taking the CREENT PETORAL on going to bed, they may be sure of sound, unbroken sleep, and consequently refreshing rest. Great relief from suffering, and an ultimate cure, is afforded to thousands who are thus afflicted, by this invaluable rimedy.

From its agreeable effect in these cases, many find them selves unwilling to forego its use when the necessity for it has ceased.

Distribution of Premiums. The most imposing of all the school ceremonials for the present season was that of yesterday afternoon, whereat the distribution of premiums to the meritorious pupils of the First School District took place in the hall of the Smithsonian Institution. After the children were seated, and the brass band attending had discoursed their introductory, prayer, in very befitting terms and spirit, was offered up to the Throne of Grace by the Rev. Mr. Hill, entreating a blessing on the occasion, as well as on the schools in general, and all concerned in their management and support. B. B. French, esq., was then introduced, and addressed the assembly for about thirty minutes in an eloquent, stimulating, and appropriate manner, which will be

published. The male department of the First District School was then called up to receive the awards that had been made. Liberian colonization has of late been attract-ing unusual attention in all parts of the United If, at the end of three years, it is found unpro-States; and it is stated that the collections for colonization purposes on or near the 4th of July have been far more numerous this year than ever before. This is truly encouraging, and will, no doubt, stimulate the friends of the cause to renewed and more vigorous efforts. An expedition with emigrants will leave New York for Monrovia on the 1st of October next, and for passage by it there are already over one hundred applications on the list. Of those a number are of Michigan, a fact which shows that a new feeling has been excited among the colored population of the Northern States on the subject. (From the National Intelligencer.) Indian Interview with the President. The four Pueblo Indians who arrived here Saturday from New Mexico, in charge of Capt. W. E. Love and Mr. David E. Whiting, yesterday made their first visit to the Indian Bureau, and theace called upon the President of the United States. Before being admitted to the President, they remained some time in the East-room, where their admiration was excited to a high pitch by the size of the apartment, and the magnificence with which it is furnished. On being introduced to the President in his official room up stairs, each of the party shook hands with the President and the Secretary of the Interior. The names of the Indians, who are from the pueblo of Tesuque, about twelve miles north of Santa Fe, are respectively Jose Maria, Carlos Vigil, Juan Anto-

nio, and Jose Abeyta. The Indians spoke in Spanish. Mr. Whiting acted as interpreter.

The President having signified his disposition to

listen to anything they might have to communicate, Jose Maria, after a few minutes of modest delay, said he solicited permission to speak to the President on two or three subjects. He had, he said. travelled very far to see the country and people of the United States, and what he saw greatly astonished him. He had heard a great many strange things of the habits and customs of the people of this country, but now he saw for him-self. Much that he had heard he did not believe, suffered a great deal of trouble; but he looked upon the President as his Great Father, and the father of his people as well as of his white brethren, and as such he should look to him for help and succor. His people wished to live according to their own habits and customs ; but his country was a very poor one; living there was very high; and if he spends a dollar, so much of it goes for food that he had nothing left to buy clothing with. Owing to mismanagement, or something unfavorable, there were a great many medal: Alonzo Clampit, a diploma: also diplomas thieves in the country; this would sometimes lead to John DeKraft: Thomas Moran, Edmund Wood-to bad results; but for his part and his people's, they wished to live in peace and quuietness. He complained of his Mexican neighbors, by whose dishonesty his people had lost several animals, which he wished to have restored. The Mexicans also cut more acequias than they had agreed to do, and took off too much water from their fields. He also said he wished that the stipulations of the treaty entered into three years ago with the I nited States should be fulfilled. He would like to take home some agricultural implements and other tools, for they had scarcely anything to make a door or window with. He wished to ledge a complaint against a man named Mestis, who had acted as agent for their pueblo in selling some goods in Chihuahua; he had sold fifty-three buffalo robes, worth \$4 each, and had only returned \$70 and two calves for them. He could not say anything more; he was so much struck with the buildings, and institutions, and manners of the people of the United States that he was at a loss to express himself. Before sitting down, he requested that before he returned he might have some church ornaments given him, a list of

which had been given him by his curè. The President replied by expressing the gratification he felt in meeting them. This was the first time in his life that he had the pleasure of seeing a Pueblo Indian. He knew how long and tedious a journey they had travelled; he knew that they would have to pursue the same journey home : but he hoped the Great Spirit would bless

and sustain them till they again returned to the bosom of their families. The President was sorry to hear that there were thieves and bad men in their country. He was anxious that the law should be enforced against all such, and in order to this end he had appointed Governor Lane to be Governor of New Mexico, who would be charged with protecting the good and punishing the bad. All questions relating to their internal affairs must be settled by the Governor and officers in the Territory. As

mise at this time, but whatever it was in power to do for them should be performed. Mr.

Stuart, the Secretary of the Interior, and the

the Pueblos. The President regretted to hear of the dishonesty of the Mexicans with whom they had dealings in Chihuahua, but it was out of the power of this government to help them; they could only in such cases look to the Mexican laws for redress. He would advise the Pueblos, however, o have nothing to do in future with men who

had proved themselves dishonest. In reference to the treaty of three years ago, the President, would look into it, and if it should be found that any stipulation in it lacked fulfilment, he would see it should be fulfilled. He Third Primary, second division, is under the was gratified at their visit, and hoped that after seeing so much of the United States they had rmed a better opinion of the people than they had before they came. The President regarded his red children in New Mexico with the same good will that he did his white children in the States, and would do all in his power to make them happy. He was sorry their country was honed that by improved agriculture they would find the high prices advantageous instead of the reverse. This was all he had to say, except that he hoped the Great Spirit would bless them on their return, and give them health and happiness. The Secretary of the Interior and the Commissioner of Indian Affairs would give them any further information they might require.

After another shaking of hands the Indians retired, and soon after were conducted to the Capitel by their agents. With one exception these ludians are of small stature. They can all read and write. Jose Maria is really a pleasant speaker, the Spanish sounding very softly and s.noothly as it flowed from his lips.

A new patent law has just gone into operation Under its provisions, only one pain England. ent will be necessary for the United Kingdom and colonies. The expense of procuring it will be as follows: On issuing the patent, fees, and stamps, £25; at the end of the third year, £50; at the end of the seventh year, £100. The patent is to be void at the end of the third and seventh years respectively, if the fees due at those periods are not paid. The entire expense is yet extravagantly large: but a great advantage is gained by the comparatively small amount which is necesductive, of course no more expense will be incurred; but if the contrary, it will easily afford the means of meeting the additional tax. The same rule will govern the conduct at the end of the seventh year

DEATH OF JOHN DOE AND RICHARD ROE .- By the London papers we learn that these distinguished persons, who have lived so long (some seven or eight hundred years) as to be considered immortal, and who were apparently the largest owners of real estate in Great Britain, will cease to exist on the 24th of October next an act of the recent session of Parliament providing that, instead of the present proceedings in actions of ejectments, (in which these worthies always took a conspicuous part,) the writ shall be directed to the person in possession of the de-
